Product Application Presentation

Product Identifier:

TCI 104 H.D.

Process Identifier: Waterless heavy duty d-limonene general purpose hand cleaner with moisturizers for healthy skin

Product Presentation

TCI 104 H.D. is a triple function skin healing hand cleaner. Conditioners for dry, chapped and cracked skin, cleaners for the entire soil spectrum **without** abrasive action. This thick gel formulation combines the cleaning ability of a detergent and the grease cutting action of a non-harmful citrus solvent extract. All components are biodegradable and environmentally friendly. This formulation is designed to the maximum degree of soil complexity. Contains lanolin and glycerine to guard and protect against cracking the skin on hands and finger tips common to mechanics in cold weather conditions when humidity is very low.

Process Introduction

TCI 104 H.D. is designed for safe use on water resistant surfaces to remove soils and compound soils ie. carbonaceous residues, compacted grease, oily fluids, tar, asphalt, varnish and varathane, adhesives, glues and cements, gum & resin sap, chewing gum in hair and on fabrics, paints, printers and silk screening inks, silicones, metal oxides and aqueous compounds. Cleans dirt quickly, rinses squeaky clean with water and deposits an anti-static moisture absorbent.

Additional Application

Spot clean stubborn stains on laundry articles and clothing.

Process Specificity

Use the **Hygiene Technik** wall mount dispensing and delivery system provided:

1 squirt or 1 ml of **TCI 104 H.D.** is required for light dirt load.

2 squirts or 2 ml of **TCI 104 H.D.** is required for medium dirt load.

3 squirts or 3 ml of **TCI 104 H.D.** is required for heavy dirt load.

Rub and massage well to gain skin conditioning features and benefits. Either wipe dirt onto a rag, paper towel or rinse thoroughly with warm or cold water and towel dry.

ONLY ONE QUARTER the amount of **TCI 104 H.D.** is required to do a superior job and performance compared to conventional high profile advertised products.

On average, a **4 L** bottle will service **2,000** users at **2 cents/squirt**.

Packaging: 04, 205 L with dispensers

For industrial and institutional use only.
