

Product Application Presentation

Product Identifier:

TCI 206 H.D.

Process Identifier: Asphalt roller & Dump truck bed surface bitumen repellent and anti-static water based fluid (concentrate)

Product Presentation

TCI 206 H.D. features an effective green water based formulation concept without petroleum solvents in the form of a super concentrated liquid that combines biodegradable detergents, environmentally friendly slip coatings meeting current Ministry of Transportation specifications.

The water adjustable concentration strength is based on environmental conditions of temperature and humidity encountered in the asphalt handling and paving industry.

Safe on all common surfaces when used according to directions.

Packaging: 205 L 1,000 L

Process Introduction

TCI 206 H.D. is designed for foam and/or spray applications.

TCI 206 H.D. is ideal for generating clinging foam to blanket walls, floors and tailgates of truck bedsto prevent adhesion of asphalt aggregate without adverse effects. .

TCI 206 H.D. is ideal as a spray for asphalt rollers to assure trouble free compression of the asphalt aggregate while paving without adverse effects.

The chemical solution rinses freely with water and is thus harmless to aluminum articles and paint over time.

Process Specificity

TCI 206 H.D. is used as 1 part concentrate to 7 - 15 parts of water applied manually as a spray or with the recommended chemical proportioner depending on dilution methods available.

The diluted product can be prepared with a simple Dosatron proportioner at any desired formulation and dispensed directly into the canister of the convenient light weight rechargeable battery powered FOAM PRO 12.

See demo video on Tetra-Chem Web Site.

FEATURES:

- Time saving & economical application
- Harmless to asphalt - solvent free with EXCELLENT release properties
- Easy emulsification removal with water and friendly to the environment.

Product Safety

- Read safety data sheets before using any chemical product.
- Contains biodegradable surfactants.
- Do not take internally.
- If splashed on skin, flush thoroughly with water.
- Avoid prolonged skin contact.
- If splashed in eyes, flush thoroughly with water. If irritation develops call physician immediately.
- Keep out of reach of children.

STORAGE:

Store container in dry area @ (4-45 °C)

For industrial and institutional use only.
