

Product Application Presentation

Product Identifier:

TCI 3510 H.D.

Process Identifier:

RV plumbing anti-freeze concentrate (red) (ethanol base)

Product Presentation

TCI 3510 H.D. RV plumbing anti-freeze (ethanol base) is a concentrated red dyed formulation of food grade propylene glycol and ethanol to protect outdoor storage of water-bearing plumbing against cold weather freezing.

For Your Information

TCI 3510 H.D. is a ready to use composition allowing selective use in extremely cold weather conditions.

Note: Keep out of reach of children.

Process Introduction

TCI 3510 H.D. is designed for replacing water that has a freeze point of 0°C that may cause burst breakage of piping etc. due to the expansion of water to ice.

Process Specificity

Replace all the water in reservoirs, pumps and lines with TCI 3510 H.D. RV Plumbing anti-freeze until a consistent red color appears.

FLUSH THOROUGHLY WITH POTABLE WATER

205 litres

1,000 litres

For industrial and institutional use only.
