

Product Application Presentation

Product Identifier:

TCI 4605 H.D.

Process Identifier: Interior cab vinyl and vehicle trim rejuvenator with UV protection and dust repellency (RTU)

Product Presentation

TCI 4605 H.D. is a creamy white fluid formulation of UV resistant, tackless bonding agents that do not alter the integrity of the surface to which it is applied. It's main feature is anti static chemistry that lasts up to 3 month. Chemistry will not interfere with other promotional scents. Applied by professional equipment detailer's, hobbyist's and consumers as an attractive answer to restoring or maintaining the original luster on vinyl dashboards, wood trim and plastic moldings on modern cars, pick-ups, trucks and farm machinery working in normal and or dusty environments.

Zero VOC compliant.

Contains NO solvents.

Packaging: 004 Litres

Process Introduction

TCI 4605 H.D. is designed for dry cloth hand wipe application at full strength.

FOR ALL VEHICLES AND EQUIPMENT: Clean vinyl dashboard and all interior hard surfaces of the cab with **TCI 700 H.D.** premixed with 9 parts water and applied via spray or wipe to remove dust, working grime, cigarette smoke and odour.

FOR ALL VEHICLES AND EQUIPMENT: Clean vehicle exteriors with **TCI 710 H.D.** premixed with 9 parts water and applied via spray or brush to remove bug splatter, road film, working grime, brake dust and hard water soap scum. Once dry apply **TCI 4605 H.D.** to all plastic moldings and rubber tires for a showroom look and fade protection.

FOR HEAVY TRUCKS AND TRAILERS: Clean vehicle exterior with **TCI 710 H.D.** premixed with 9 parts water and applied via spray or brush to remove bug splatter, road film, working grime, brake dust and hard water soap scum. **TCI 710 H.D.** is designed to clean polished aluminum without etching, streaking or tarnishing.

Every 2-3 month after finished washing with **TCI 710 H.D.** apply **TCI 503 H.D.** aluminum polish to each individual article and power wash off at high pressure and close range to maintain the sparkling high polish on fuel tanks, regular aluminum tire rims, **ALCOA DURABRITE's** and extruded aluminum trailer rails.

PRODUCT APPLICATION SHEETS/SDS for above mentioned products available by scanning the QR on the label.

Process Specificity

TCI 700 H.D. Multi-Purpose Aqueous Heavy Duty Cleaner/Degreaser Concentrate is designed to be diluted at 10:1 with water and pre-sprayed to clean the entire soil spectrum encountered in the transportation industry.

TCI 710 H.D. Brushless Biodegradable Vehicle Wash & Shine Concentrate (Safe on POLISHED ALUMINUM). This cleaner is designed to be diluted at 10:1 with water and pre-sprayed on any water safe surface on transportation equipment for road film and bug splatter removal.

Start spray or foam application at the bottom and work up - power wash bottom to top - rinse top down.

TCI 503 H.D. Polished Aluminum Cleaner & Surface Passifier leaves - NO - Residual Chemical Corrosion and is primarily used to remove surface oxidation and discolourations from aluminum articles on transportation equipment.

Start spray or foam application at the bottom and work up - power wash bottom to top - rinse top down.

TCI 4605 H.D. A Multi-Purpose Automotive VINYL INTERIOR & TIRE rejuvenator and conditioner is a ready to use thick siloxane fluid that is wiped unto the surfaces for a pleasant odour free, anti-static effect and positive appearance.

(Safe on POLISHED ALUMINUM)

This procedure applies 1,000 sq.ft./gal

For industrial and institutional use only.
