Product Application Presentation

Product Identifier:

TCI 4610-10 H.D.

Process Identifier:

Glass and mirror cleaner with deionized water (ready to use blue liquid)

Product Presentation

TCI 4610-10 H.D. is a 10% ready to use from concentrate micro-emulsion solvent glass/mirror cleaner concentrate that combines the cleaning ability of biodegradable detergents with the grease cutting action of solvents in a mild acidic medium.

Packaging & Product Codes:

4x4 L.....4610-10-004

20 L.....4610-10-020

205 L.....4610-10-205

Process Specificity

TCI 4610-10 H.D. may be applied in the industrial setting, aviation, agricultural and automotive industry on equipment, where oil, grease, bituminous deposits (e.g. tar & asphalt), hydrocarbons and exhaust soot are a cleaning problem. To achieve a new glisten to glass, spray a small amount onto the glass or mirror surface, then wipe clean and buff dry with a towel or lint-free cloth. Turn towels or cloths frequently to avoid streaking until dry.

Process Introduction

TCI 4610-10 H.D. is designed to be a ready to use product. The strength is adjusted to all degrees of soil complexity. It is safe to use on all surfaces that are water safe to remove complex soils. TCI 4610-10 H.D. cuts through dirt and film leaving sparkling clean and beautifully clear with no smudges or streaks. Formulated at extra strength for cleaning the troublesome haze (electrostatically adsorbed atmospheric grime) on vehicle interiors e.g. light oils and greases, residues of tar, from mobile homes, houses and cottages, trucks, automobiles and recreational vehicles. Cleans quickly, wipes spot free and deposits an anti-static moisture repellent. It has a pleasant working aroma.

For industrial and institutional use only.
