Product Application Presentation

Product Identifier:

TCI 601 H.D.

Process Identifier:

In/outdoor mould, mildew, algae cleaner concentrate

Product Presentation

TCI 601 H.D. is a high active ingredient 10-12% bactericidal-fungicidal-algaecidal-virucidal sanitizer, disinfectant and odor counteractant for the elimination of organic stains and odors.

Packaging and Product Code:
010 L 601-010

Process Specificity

TCI 601 H.D. is designed for the destruction of weathered organic build-up on hard surfaces such as walls, wooden and metal fences, decks, concrete decks, patio stones and pavers. Remediation of interior mold build-up is instantly eliminated and cat urine odour that has penetrated the under-surface of carpets is removed by one single spray application.

Process Introduction

TCI 601 H.D. is designed to be used as is and sprayed onto the weathered stains for the destruction of organic buildup on hard surfaces such as walls, wooden and metal fences, decks, concrete decks, patio stones and pavers. Allow enough time for all the stains to disappear. As a final step apply TCI 605-10 H.D. to neutralize the bleach and let air dry. No water rinse.

Complete destruction of micro-organisms on weathered wood without pressure washing.

For industrial and institutional use only.
