

Product Application Presentation

Product Identifier:

TCI 608 H.D.

Process Identifier:

Toilet bowl & urinal cleaner/sanitizer for uric acid scale & odour control (RTU)

Product Presentation

TCI 608 H.D. is a ready-to-use all-season anti-microbial, anti-viral sanitizer/disinfectant formulation for hands, gloves, footwear, livestock and feed supply transport wheels/tires. No rinse clearance when used as a hard surface sanitizer and disinfectant.

Active Ingredients

- Synergize 128:1
- Quat/glutaraldehyde mixture

Process Specificity

TCI 608 H.D. is designed for the spray/soak application on clean surfaces for the control of foreign microbial contamination. A precautionary must for infectious disease prevention in bio-security facilities with compliance programs to safeguard transmission through entry and exit of mobile livestock/feed carriers and personnel. The Transportation Equipment, must have been properly washed by our recommended professional cleaning products. The personnel must treat their boots the same way as all other contact contamination carriers.

Process Introduction

Using our chemical spray/soak applicator systems apply TCI 608 H.D. at full strength directly to the surfaces to be disinfected. This formula will not evaporate and is effective from temperatures of -50°C to +50°C. No rinse clearance.

PACKAGING: 004, 020, 205 L
