# **Safety Data Sheet**

# Section 1: Product identification and use

# Product Identifier: Process Identifier:

# **TCI 1204 H.D.**

Ferrous metal hot tank immersion degreaser, rust and paint stripper (ready to use)

Supplier's name and address:

Tetra-Chem Industries Ltd.

271 Ingersoll St. S., Ingersoll ON N5C 3J7 Canada

Phone: 519-485-4370 - Toll free: 888-658-5515

24H EMERGENCY: 613-996-6666

#### Manufacturer's name and address:

# Tetra-Chem Industries Ltd.

271 Ingersoll St. S., Ingersoll ON N5C 3J7 Canada Phone: 519-485-4370 — Toll free: 888-658-5515

#### Section 2: Hazard identification **GHS Classification Precautionary Statements** Corrosive To Metals: Category 1 P234-Keep only in original container. Skin Corrosion/Irritation: Category 1A P260-Do not breathe (mist, vapours or spray). Eye Damage/Irritation: Category 2/2A P264—Wash hands thoroughly after handling. Pictograms P280-Wear protective gloves, protective clothing, eye protection and face protection. P301+P312-IF SWALLOWED: Call the hospital emergency Doctor if you feel unwell. P301+P330+P331-IF SWALLOWED: Rinse mouth. Do not induce vomiting. P303+P361+P353—IF ON SKIN (or hair): Take off all contaminated clothing immediately. Rinse skin with water or shower with cold water. P304+P340-IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338-IF IN EYES: Rinse cautiously with saline buffer for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing, Signal Word P310-Immediately call the hospital emergency Doctor. DANGER P321-Specific treatment (treat as caustic burn). Hazard Statements P337+P313-If eye irritation persists get medical advice or attention. H290-May be corrosive to metal. P363-Wash contaminated clothing before reuse. H302-Harmful if swallowed. P390—Absorb spillage to prevent material damage. H314-Causes severe skin burns and eye damage. P405-Store locked up. H318-Causes severe eye damage. P406-Store in a corrosion resistant container of HDPE plastic. H319-Causes serious eye irritation. P501-Dispose of contents in accordance with local, regional, national and international government regulations. Return container to supplier for recycling.

Section 3: Composition / information on ingredients

Section 3: Composition / Info	ormation on ingredients		
Hazardous Ingredients:	CHEMICAL NAME Potassium Hydroxide	CAS NUMBER 1310-58-3	CONCENTRATION [%] 7 - 13
Section 4: First aid measures	3		
Description of First Aid Measures General: Determine areas of exposure. Inhalation: Excessive exposure - move the fresh air. Skin Contact: Wash with cold water or neutralize with 5% vinegar solution. Eye Contact: Remove contact lenses. Rinse with cold water or saline solution. Ingestion: If victim is conscious administer 5% vinegar solution. Seek immediate medical attention. Do not induce vomiting.		Most Important Symptoms and Effects Both Acute and Delayed General: Low risk to adverse health effects. Inhalation: Respiratory irritation or sore throat. Skin Contact: Severe skin burns. Eye Contact: The alkali solution can travel to the back of the eye ball and corrode the opti nerve if sprayed directly into the eyes. The delayed effect symptoms are a scaly rash for 3- days when blinking. Seek medical attention. Ingestion: Burning sensation just like acid reflux. Seek medical attention.	
Section 5: Fire-fighting meas	sures		
Extinguishing Media Suitable Extinguishing Media: Evaluate based on surrounding fire. Unsuitable Extinguishing Media: Evaluate based on surrounding fire. Special Hazards Arising From the Substance or Mixture Fire Hazard: Corrosive caustic vapours at high temperatures. Evalosion Hazard: No risk		Advice for Firefighters Precautionary Measures Fire: Evaluate based on surrounding fire. Firefighting Instructions: Evaluate based on surrounding fire. Protection During Firefighting: Evaluate based on surrounding fire. Hazardous Combustion Products: Oxides of Carbon, Caustic vapours.	

Explosion Hazard: No risk. Reactivity: No risk.

#### Section 6: Accidental release measures

Personal Precautions, Protective Equipment and Emergency Procedures	For Emergency Personnel
General Measures: Wear impervious splash protection. Neutralize with copious amounts of	Protective Equipment: Wear impervious splash protection.
water or safe acid solutions and flush to sanitary sewers if at pH 8.5.	Emergency Procedures: Neutralize with copious amounts of water or safe acid solutions and
For Non-Emergency Personnel	flush to sanitary sewers if the pH is below 8.5 and above 5.5.
Protective Equipment: Wear impervious splash protection.	Environmental Precautions
Emergency Procedures: Mop up small spills with water and flush to sanitary sewers. Large	Methods and Material for Containment and Cleaning Up
spills should be contained and reported immediately.	For Containment: Water/oil absorbent pads.
Phone Number of your local authority for Emergency Spill Response:	Methods for Cleaning Up: Mop up small spills and dispose to sanitary sewer.
Section 7: Handling and storage	

#### Precautions for Safe Handling

Additional Hazards When Processed: Use only Manufacturer supplied storage and/or dispensing equipment. See GHS WORKPLACE LABEL in your work area. Hygiene Measures: Do not eat, drink or smoke while using this product. Personal Protection Equipment required for cleaning process. Storage Conditions: Keep only in original containers. Incompatible Materials: Do not mix with other cleaners.

#### Special Rules on Packaging: Consult Manufacturer or Supplier.

Specific End Use(s) TCI 1204 H.D. Aqueous Ferrous Metal Hot Soak Tank Rust and Paint Stripper (Ready to Use) is primarily used to remove oil, grease, paint, rust and corrosion from ferrous metals in 10-15 minutes at 150°F (70°C.)

See Product Application Sheet or label QR for safe intended use.

### Section 8: Exposure controls / personal protection

**Control Parameters** 

ACGIH TLV: 15 mg/m<sup>3</sup> (TWA) 175 ppm (SKIN 500 mg/m<sup>3</sup> (INHALATION) OSHA PEL: 15 mg/m<sup>3</sup> (TWA) 175 ppm (SKIN) 500 mg/m<sup>3</sup> (INHALATION)

# **Exposure Controls**

Appropriate Engineering Controls: Adequate ventilation to meet exposure limits by removing the hazard from an inside or outside work environment. The chemical constituents of the cleaning solution does not evaporate. Some Potassium Hydroxide may carry out in steam or vapor if solution is boiling vigorously.

# Section 9: Physical and chemical properties

Personal Protective Equipment:

**Other Information:** Alkali resistant GLOVES are always required. In confined wash areas with minimal ventilation use NIOSH approved respirators and splash protection for alkaline mist when rinsing parts.

degradable.	Other Information: No unusual adverse effects encountered.
Toxicity: Not applicable when used as directed. Mobility in Soil: Neutralizes and turns to salt in soil. Detergents are bio-	Other Adverse Effects
Section 12: Ecological information	
Section 11: Toxicological Information Information on Toxicological Effects - Product Acute Toxicity: Not available. LD <sub>50</sub> Data (Species-Route): 273 mg/kg(Rat - oral). LC <sub>50</sub> Data (Species-Route): Not available. Skin Corrosion/Irritation: Severe irritant: Human/Rabbit 50 mg/24hrs Serious Eye Damage/Irritation: Moderate corneal injury: Rabbit 1 mg/24hrs Respiratory or Skin Sensitization: Not suspected. Germ Cell Mutagenicity: Not suspected. Teratogenicity: Not suspected. Carcinogenicity: Not suspected. Specific Target Organ Toxicity (Repeated Exposure): Not available.	Reproductive Toxicity: Not suspected. Specific Target Organ Toxicity (Single Exposure): Not suspected. Aspiration Hazard: Not anticipated. Symptoms/Injuries After Inhalation: Irritation/burning sensation. Symptoms/Injuries After Skin Contact: Slight irritation/redness observa- tion. Symptoms/Injuries After Eye Contact: Stinging/scaly sensation. Tearing/ Redness. Symptoms/Injuries After Ingestion: Sore throat/burns. Information on Toxicological Effects - Ingredients Large doses can change the body's pH and electrolyte balance.
Section 11: Toxicological information	
Section 10: Stability and reactivity Reactivity: Reacts violently with strong acids. Chemical Stability: Stable. Possibility of Hazardous Reactions: None when used as directed. Conditions to Avoid: Strong oxidizers.	Incompatible Materials: White metals or their alloys: aluminum, magne- sium, lead, tin, zinc, brass and babbitt. Hazardous Decomposition Products: Hydrogen release from above metals.
Section 9: Physical and chemical properties Information on Basic Physical and Chemical Properties Physical State: Liquid. Appearance: Water clear with slight tint of amber. Odour: Detergent. Odour Threshold: Not available. pH: 13 Relative Evaporation Rate (butyl acetate=1): 0.3 Melting Point: Not applicable. Freezing Point: 0°C Boiling Point: 100°C. Flash Point: Not applicable. Auto-ignition Temperature: Not applicable.	Decomposition Temperature: Not applicable. Flammability (solid/gas): Not applicable. Lower Flammable Limit: Not applicable. Upper Flammable Limit: Not applicable. Vapour Pressure: Not applicable. Relative Vapour Density at 20°C: Not applicable. Relative Density (water=1): 1.03 Solubility in Water: Complete Partition coefficient: n-octanol/water: Not applicable. Viscosity: 1 centipoise @ 20°C. Explosion Data – Sensitivity to Mechanical Impact: Not applicable. Explosion Data – Sensitivity to Static Discharge: Not applicable.

Waste Disposal Recommendations: Consult Manufacturer or Supplier.

Additional Information: The cleaning process may generate a hazardous industrial waste. Comply with Canadian Ministry of Environment and Climate Change: Regulation 347 and local municipal by-laws. Comply with US EPA's

# Section 14: Transport information

TDGA CANADA - DANGEROUS GOODS: REGULATED 49 CFR (USA) DANGEROUS GOODS: REGULATED IMDG (VESSEL) DANGEROUS GOODS: REGULATED IATA (CARGO AIR) DANGEROUS GOODS: REGULATED IMDG (PASSENGER AIR) DANGEROUS GOODS: REGULATED federal, state & local regulations. Tetra-Chem Industries Ltd. is licensed by the Ministry of the Environment and Climate Change for waste management. Ontario Certificate of Approval # A 800506. **Provincial Waste Class:** Waste stream to be determined for treatment method.

EMERGENCY ASSISTANCE: CANADA Canutec 1-888-CANUTEC (1-888-226-8832)

Proper Shipping Name: UN 1760, CORROSIVE LIQUID, N.O.S., (Potassium Hydroxide), CLASS 8, P.G. II Hazard Class: 8 Identification Number: UN3266 Packing Group: III Label /Placard Codes: 8

# Section 15: Regulatory information

CANADA: All ingredients are listed on the DSL Domestic Substance List.

# Section 16: Other information

Prepared by: Health and Safety committee Contact: A. Struthmann (Hon. BSc.) Telephone: 1-519-536-1617 Date prepared: 2023-03-01 USA: All ingredients are listed on the TSCA Toxic Substances Control Act.

Additional information: The information in this SDS has been obtained from sources believed to be reliable. The manufacturer and supplier provides no warranties express or implied and assumes no responsibility for the accuracy or the completeness of the data contained herein.
