# <u>Safety Data Sheet</u>

Section 1: Product identification and use

# **Product Identifier:**

**Process Identifier:** 

# **TCI 520 H.D.**

Stainless steel and aluminum brightener concentrate for truck wash facilities

Supplier's name and address:

Tetra-Chem Industries Ltd. 271 Ingersoll St. S., Ingersoll ON N5C 3J7 Canada

Phone: 519-485-4370 - Toll free: 888-658-5515

# 24 H EMERGENCY: 613-996-6666

#### Manufacturer's name and address:

# Tetra-Chem Industries Ltd.

271 Ingersoll St. S., Ingersoll ON N5C 3J7 Canada Phone: 519-485-4370 - Toll free: 888-658-5515

#### Section 2: Hazard identification

#### GHS Classification P261—Avoid breathing mist or spray. Acute Toxicity (Dermal)—Category 3 P264—Wash hands thoroughly after handling. Acute Toxicity (Inhalation)-Category 3 P270-Do not eat, drink or smoke when using this product. Acute Toxicity (Oral)-Category 3 P271–Use only outdoors or in a well-ventilated area. Corrosive to Metals-Category 1 P280-Wear protective gloves, protective clothing and eye protection. Serious Eye Damage-Category 1 P284-Wear respiratory protection inside a wash bay or other confined space. Skin Corrosion-Category 1B P301+P310-IF SWALLOWED: Immediately call a doctor at a hospital emergency department. P301+P330+P331-IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Pictograms P302+P352-IF ON SKIN: Wash with plenty of water or apply an aqueous 2% baking soda solution. P303+P361+P353-IF ON SKIN OR HAIR Immediately remove all contaminated clothing. Rinse skin with water and/or shower or immediately apply an aqueous 2% baking soda solution. P304+P340—IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338-IF IN EYES: Remove contact lenses. Rinse cautiously with water for several minutes. The acid solution can travel to the back of the eye ball and corrode the optic nerve if sprayed directly into the eyes. P310-Immediately call a doctor at a hospital emergency department. P320-Specific treatment is urgent (apply an aqueous 2% baking soda solution immediately) Signal Word P321-Specific treatment after prolonged exposure: Causes severe skin burns which may not become appar-Dange ent for several hours. Apply and massage with 2.5% Calcium Gluconate Gel. Hazard Statements P330-Rinse mouth. H290-May be corrosive to metals. P361+P364-Take off immediately all contaminated clothing and wash it before reuse. H301-Toxic if swallowed P363-Wash contaminated clothing before reuse. H311-Toxic in contact with skin P390-Absorb spillage to prevent material damage H314-Causes severe skin burns and eye damage. P403+P233-Store in a well ventilated place. Keep container tightly closed. H318—Causes serious eye damage. P405-Store locked up. H331-Toxic if inhaled. P406-Store in original corrosive resistant container. Precautionary Statements P501-Dispose of contents and/or container (See Section 13) in accordance with local/regional/national/ P234-Keep only in original container. international regulations. P260-Do not breathe mist or spray. Section 3: Composition / information on ingredients Hazardous Ingredients: CHEMICAL NAME CAS NUMBER **CONCENTRATION** [%] Sulphuric acid 7664-93-9 1-5 Hydrofluoric acid 7664-39-3 1-5

Section 4: First aid measures

Description of First Aid Measures General: Determine areas of exposure. Inhalation: Excessive exposure - move the fresh air. Skin Contact: Wash with cold water or neutralize with baking soda solution. Apply 2.5% Calcium Gluconate Gel and massage deep into the skin. Eye Contact: Remove contact lenses. Rinse with cold water or saline solution. Ingestion: If victim is conscious administer antacid in liquid or tablet form. Seek immediate medical atten- tion. Do not induce vomiting.	Most Important Symptoms and Effects Both Acute and Delayed General: HIGH RISK adverse health effects. Inhalation: Respiratory irritation or sore throat with ulceration possible. Skin Contact: Causes severe skin burns which may not become apparent for several hours. Apply and massage with 2.5% Calcium Gluconate Gel. Seek immediate medical attention. Eye Contact: Causes serious eye damage. The acid solution can travel to the back of the eye ball and corrode the optic nerve if sprayed directly into the eyes. The delayed effect symptoms are a scaly rash for 3-4 days when blinking. Seek medical attention. Ingestion: Burning sensation and ulceration just like acid reflux. Seek medical attention.
Section 5: Fire-fighting measures	
Extinguishing Media Suitable Extinguishing Media: Evaluate based on surrounding fire. Unsuitable Extinguishing Media: Evaluate based on surrounding fire. Special Hazards Arising From the Substance or Mixture Fire Hazard: Corrosive acid vapours at high temperatures. Explosion Hazard: No risk. Reactivity: No risk.	Advice for Firefighters Precautionary Measures Fire: Evaluate based on surrounding fire. Firefighting Instructions: Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Protection During Firefighting: Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Hazardous Combustion Products: Oxides of Carbon, Acid vapours.
Section 6: Accidental release measures	
Personal Precautions, Protective Equipment and Emergency Procedures General Measures: Wear impervious splash protection. Neutralize with copious amounts of water or alka- line solutions and flush to ground or sanitary sewers. For Non-Emergency Personnel Protective Equipment: Wear impervious splash protection. Emergency Procedures: Neutralize with copious amounts of water or alkaline solutions for proper waste processing and disposal. For large spills use containment and dike. Phone Number of your local authority for Emergency Spill Response:	For Emergency Personnel Protective Equipment: Wear impervious spray/splash protection. Emergency Procedures: Neutralize with copious amounts of water or alkaline solutions to achieve a neutral salt solution and contain for proper waste processing and disposal. Environmental Precautions Methods and Material for Containment and Cleaning Up For Containment: Water absorbent pads. Methods for Cleaning Up: Mop up small spills for proper waste processing and disposal.

#### Section 7: Handling and storage

#### Precautions for Safe Handling

Additional Hazards When Processed: Use only Manufacturer supplied storage and/or dispensing equipment. See GHS WORKPLACE LABEL in your work area Hygiene Measures: Do not eat, drink or smoke while using this product. Personal Protection Equipment required when cleaning stainless steel or aluminum articles on equipment. Conditions for Safe Storage, Including Any Incompatibilities Technical Measures: Provide sufficient air exchange in application work areas.

Storage Conditions: Keep only in original containers.

#### Incompatible Materials: Do not mix with other cleaners. Special Rules on Packaging: Consult Manufacturer or Supplier.

Specific End Use(s) TCI 520 H.D. Stainless Steel and Aluminum Brightener Concentrate is intended to be used in truck wash facilities and mobile operations diluted and applied with 10-100 parts water to dissolve and remove residual corrosion with high pressure cold water

Scan Label QR for Product Application Sheet and SDS for safe intended use.

#### Section 8: Exposure controls / personal protection

Control Parameters ACGIH TLV: 25 ppm (TWA) OSHA PO: 225 mg/m<sup>3</sup> (STEL) NIOSH REL: 100 ppm (TWA)

#### **Exposure Controls**

Appropriate Engineering Controls: Adequate ventilation to meet exposure limits by removing the hazard from an inside or outside work environment. The chemical constituents of the cleaning solution do not evaporate but can be atomized by spraying or misting.

# Section 9: Physical and chemical properties

Personal Protective Equipment:

**Other Information:** Acid resistant GLOVES are not always required to prevent unsuspected and prolonged acid solution pooling. In confined wash bays with minimal ventilation use NIOSH approved respirators for acid mist.

Incompatible Materials: Chlorine bleach and strong alkali. Hazardous Decomposition Products: Chlorine gas, Oxides of Sulphur. Specific Target Organ Toxicity (Repeated Exposure): Not available. Reproductive Toxicity: Not suspected. Specific Target Organ Toxicity (Single Exposure): Not suspected. Aspiration Hazard: Not anticipated. Symptoms/Injuries After Inhalation: Irritation/burning sensation. Symptoms/Injuries After Skin Contact: Irritation/redness/delayed burns. Symptoms/Injuries After Eye Contact: Stinging, irreversible eye damage. Symptoms/Injuries After Ingestion: Sore throat/burns/ulceration. Information on Toxicological Effects - Ingredients Large doses can change the body's pH and electrolyte balance. Other Adverse Effects Other Information: No unusual adverse effects encountered.
Incompatible Materials: Chlorine bleach and strong alkali. Hazardous Decomposition Products: Chlorine gas, Oxides of Sulphur. Specific Target Organ Toxicity (Repeated Exposure): Not available. Reproductive Toxicity: Not suspected. Specific Target Organ Toxicity (Single Exposure): Not suspected. Aspiration Hazard: Not anticipated. Symptoms/Injuries After Inhalation: Irritation/burning sensation. Symptoms/Injuries After Skin Contact: Irritation/redness/delayed burns. Symptoms/Injuries After Eye Contact: Stinging, irreversible eye damage. Symptoms/Injuries After Ingestion: Sore throat/burns/ulceration. Information on Toxicological Effects - Ingredients
Incompatible Materials: Chlorine bleach and strong alkali. Hazardous Decomposition Products: Chlorine gas, Oxides of Sulphur. Specific Target Organ Toxicity (Repeated Exposure): Not available. Reproductive Toxicity: Not suspected. Specific Target Organ Toxicity (Single Exposure): Not suspected. Aspiration Hazard: Not anticipated. Symptoms/Injuries After Inhalation: Irritation/burning sensation. Symptoms/Injuries After Skin Contact: Irritation/redness/delayed burns. Symptoms/Injuries After Eye Contact: Stinging, irreversible eye damage. Symptoms/Injuries After Ingestion: Sore throat/burns/ulceration. Information on Toxicological Effects - Ingredients
Incompatible Materials: Chlorine bleach and strong alkali.
Conditions to Avoid: Chlorine or bleach.
Decomposition Temperature: Not applicable. Flammability (solid/gas): Not applicable. Lower Flammable Limit: Not applicable. Upper Flammable Limit: Not applicable. Vapour Pressure: Not applicable. Relative Vapour Density at 20°C: Not applicable. Relative Density (water=1): 1.07 Solubility in Water: Complete Partition coefficient: n-octanol/water: Not applicable. Viscosity: 1.5 centipoise @ 20°C. Explosion Data – Sensitivity to Mechanical Impact: Not applicable. Explosion Data – Sensitivity to Static Discharge: Not applicable.

**Waste Disposal Recommendations:** Consult Manufacturer or Supplier. **Additional Information:** The cleaning process may generate a hazardous industrial waste. Comply with Canadian Ministry of Environment and Climate Change: Regulation 347 and local municipal by-laws. Comply with US EPA's federal, state

& local regulations. Tetra-Chem Industries Ltd. is licensed by the Ministry of the Environment and Climate Change for waste management. Ontario Certificate of Approval # A 800506. **Provincial Waste Class:** Waste stream to be determined for treatment method.

### Section 14: Transport information

TDGA Canada—Dangerous Goods: REGULATED 49 CFR (USA)—Dangerous Goods: REGULATED IMDG (Vessel)—Dangerous Goods: REGULATED IATA (Cargo air)—Dangerous Goods: REGULATED IMDG (Passenger air)—Dangerous Goods: REGULATED

## EMERGENCY ASSISTANCE: CANADA Canutec 1-888-CANUTEC (1-888-226-8832)

Proper Shipping Name: CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S (Hydrofluoric Acid) Hazard Class: 8 Identification Number: UN3264 Packing Group: III Label /Placard Codes: 8

#### Section 15: Regulatory information

CANADA: All ingredients are listed on the DSL Domestic Substance List.

# Section 16: Other information

Prepared by: Health and Safety committee Contact: A. Struthmann (Hon. BSc.) Telephone: 1-519-536-1617 Date prepared: 2023-04-05 USA: All ingredients are listed on the TSCA Toxic Substances Control Act.

Additional information: The information in this SDS has been obtained from sources believed to be reliable. The manufacturer and supplier provides no warranties express or implied and assumes no responsibility for the accuracy or the completeness of the data contained herein.
