## Section 4: First aid measures

### Description of First Aid Measures

**General:** Follow general guidelines in Section 2.

**Inhalation:** Excessive exposure - move the fresh air. Apply CPR if not breathing.

**Skin Contact:** Remove contaminated clothing. Wash with soap and water.

**Eye Contact:** Remove contact lenses. Rinse with cold water or saline solution.

**Ingestion:** Seek immediate medical attention. Do not induce vomiting.

### Most Important Symptoms and Effects Both Acute and Delayed

**General:** Assess the degree of exposure. Assess responders risk and protection.

**Inhalation:** Respiratory irritation and possible dizziness.

**Skin Contact:** Irritation caused by defatting of skin.

**Ingestion:** Drying sensation with gastrointestinal irritation.

## Section 5: Fire-fighting measures

### Extinguishing Media

**Suitable Extinguishing Media:** Assess surrounding conditions. Dry chemical powder, Carbon dioxide, Alcohol or polymer foam.

**Unsuitable Extinguishing Media:** Solvent will sink to the bottom of water.

### Special Hazards Arising From the Substance or Mixture

**Fire Hazard:** Know the Fire Extinguisher location at your workstation.

**Explosion Hazard:** None under normal conditions. Volatile when heated. Do not weld, torch or cut drums containing residual vapours. Vapours sink to the lowest level and may be in the flammable range and an explosion may occur given a source of ignition.

**Reactivity:** Stable under normal conditions.

### Advice for Firefighters

**Precautionary Measures Fire:** Keep away from High Energy Ignition Sources. Solvent will not float on water and spread of fire.

**Firefighting Instructions:** Keep the container cool.

**Protection During Firefighting:** Wear self-contained breathing apparatus for firefighting if necessary.

**Hazardous Combustion Products:** Oxides of Carbon, hydrogen halide.

## Section 6: Accidental release measures

### Personal Precautions, Protective Equipment and Emergency Procedures

**General Measures:** Highly volatile. Vapours are heavier than air and settle in pits. Evacuate people in immediate area to the outdoors. Ventilate area: all windows and doors open until smell is gone.

### For Non-Emergency Personnel

**Protective Equipment:** Non-slip footwear, safety glasses, NIOSH approved Organic Vapor Respirator and impervious protective gloves for splash protection: Nitrile, Neoprene or Butyl Gloves.

**Emergency Procedures:** Evacuate and ventilate area. Stop mobility using suitable oil absorbing materials for small spills. Large spills are not likely in this dedicated application.
